

INYO COUNTY FILM COMMISSION

1-866-INYOFILM

Inyo County has hosted the Film Industry for over 80 years. In fact, more than 300 movies have been made here. Many of the movies were westerns that we remember from our childhood. Hop-A-Long Cassidy, The Lone Ranger, Roy Rogers & Dale Evans are just a few who came here to be immortalized in film. Inyo County has been seen recently in such movies as Dinosaur, The Gladiator, Gone in Sixty Seconds, Maverick and Tremors. Numerous TV shows and mini series have been done here as well.

There are several good reasons why Inyo County has such a long working relationship with the film industry. Inyo County's short distance from Los Angeles combined with it's unique and diverse scenery make this a favorite location. The area is Film Friendly and has many local experts that can anticipate the needs of any production company.

Inyo County Film Commission invites you to come and walk where the stars have worked. See for yourself why the production companies keep coming back. Film where you can get the job done.

For information on filming in Inyo County call 1-866-INYOFILM. The Film Commission Office will be glad to help you.
